The
Extra Quality
Line

Tool Chests

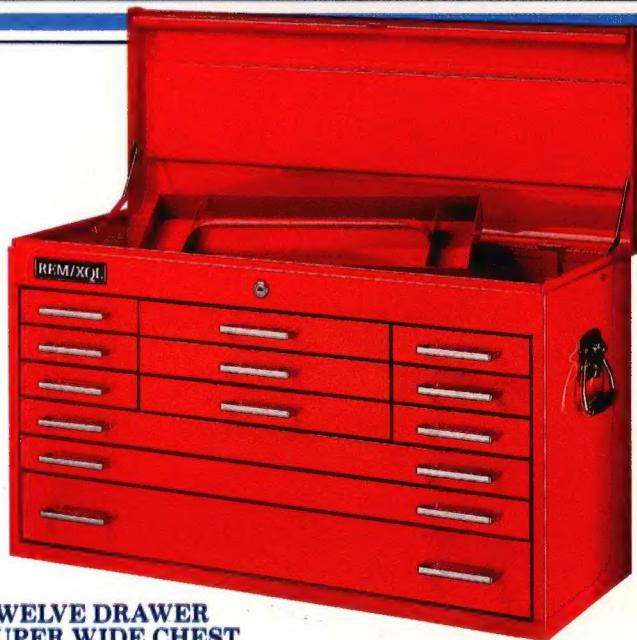

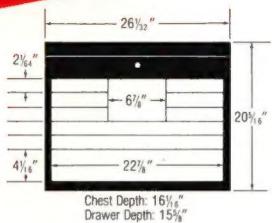

- Top of the line! Extra quality...extra features...extra storage. No one makes them bigger or better.
 - Exclusive Flush Front drawer design for 28% more tool storage.
 - Protective, baked-on, high gloss enamel finish in Rally Red.
 - Chest lids equipped with a full-length, 85° stop, steel piano hinge and two plated locking lid support arms.
 - Embossed steel inner panel on chest lids for more rigidity.
 - Heavy duty, plated chest handles with 90° positive stop for comfort and safety.
 - One-piece, I-beam drawer slides, chrome plated drawer pulls for extra strength and smooth operation. Drawers are easily and quickly removed.
 - Chests equipped with top center security drawer, which may be locked separately, to protect personal valuables. All drawers automatically lock when lid is closed.

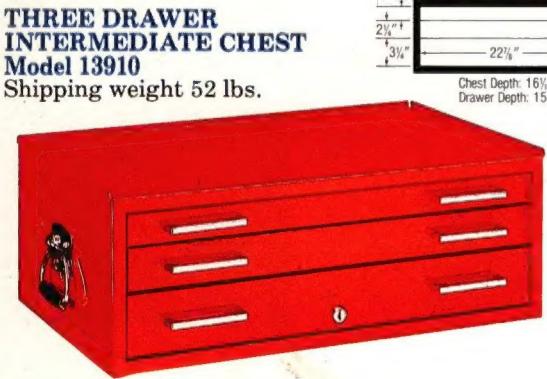

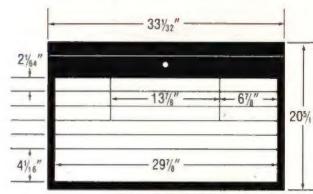

The Extra Quality Line

**THREE DRAWER SUPER WIDE
INTERMEDIATE CHEST**
Model 13912
Shipping weight 73 lbs.

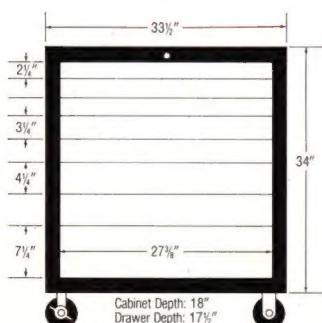

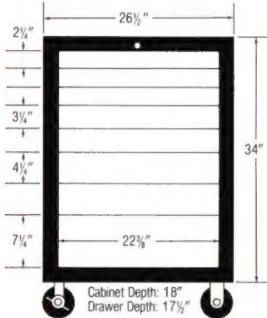

Roller Cabinets

- Chests and roller cabinets produced from cold rolled steel, spot welded for rigidity.
- All front corners reinforced with 16 gauge angles, welded in place for better lateral support.
- Heavy duty cabinet bottoms are one-piece, stamped and cross-embossed for non-sag, heavy load capacity.
- Four, super duty, hard rubber casters with wide, stain-resistant tread. Two swivel casters with friction foot brakes.
- Plated side handle fits either side of roller cabinets.
- Flush Front drawers, with I-beam drawer slides, open fully for complete accessibility. Will not spill, even when full. Includes four drawer slides on deep drawers.
- Cylinder lock security for chests and roller cabinets with two, serial number coded keys for each lock. Top drawer automatically secures entire roller cabinet.

Merchandising Displays

GONDOLA MERCHANDISER Model 103

A unique approach in tool box merchandising from Model Industries. Gondola display puts tool boxes to work on the selling floor. Maximizes tool box selection in a minimum amount of floor space. Generates sales at the store level all by itself!

Each gondola merchandiser unit can display five tool boxes on two sloped display levels. Horizontally modular for versatile gondola displays, it can also be used on most any shelf. Allows for substantial inventory underneath. Provision for box security fastening to the merchandiser. Made of lightweight, durable and attractive metal. Features shelf talker rail for

organized tool box identification and/or store pricing.

Display boxes come complete with pre-drilled holes and necessary hardware for fastening to the merchandiser. Box trays are chained to the individual tool boxes for easy customer examination and total security.

$22^{\prime\prime}\text{W} \times 6\frac{1}{2}^{\prime\prime}\text{H} \times 17^{\prime\prime}\text{D}$

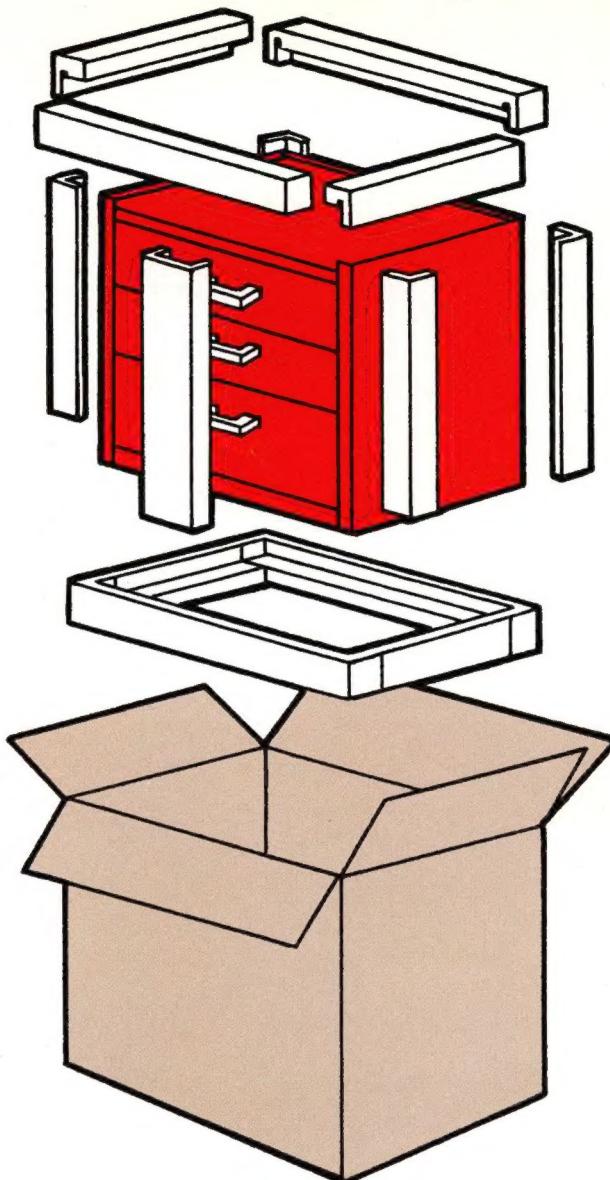

***Available, without cost, with tool box order. See current price list for details.*

Merchandising Displays

All REM/XQL and REM/PRO tool chests are shipped fully assembled. Roller cabinet casters are packed inside the cabinets (to avoid alignment damage) and require attachment. REM and UNION chests and cabinets require minimal hardware assembly.

All Model Industries tool chests and roller cabinets are packaged with extra protection. Units are covered top and bottom with a styrofoam shelf/tray. In addition, styrofoam posts cover all four corners and a front post protects hardware.

Packaging especially designed to last with extra protection to minimize product damage.

Due to different sizes of product units and shipping cartons, some variance in the use of protective packaging may occur and is subject to change without notice.
